Fig 4

卷之三

The figure shows a coordinate system with a horizontal axis and a vertical axis. Two sets of points are plotted:

- Set 1 (labeled 122):** Contains points  $(x_1, y_1, z_1)$ ,  $(x_2, y_2, z_2)$ , and  $(x_3, y_3, z_3)$ . These points are enclosed in a bracket.
- Set 2 (labeled 132):** Contains points  $(x_1, y_1, z_1)$ ,  $(x_2, y_2, z_2)$ ,  $(x_3, y_3, z_3)$ , and  $(x_4, y_4, z_4)$ . These points are enclosed in a bracket.

A horizontal line is drawn across the graph, labeled **130** at its right end. The label **SNAPSHOT** is written vertically along the left side of the graph area. The label **Measured location** is written vertically above the first set of points.

Fig 4

| Snapshot | Measured Location       | Measured Value   |
|----------|-------------------------|------------------|
| 1        | $\{(x_1, y_1), \dots\}$ | $\{y_1, \dots\}$ |
| 2        | $\{(x_1, y_1), \dots\}$ | $\{y_1, \dots\}$ |
